## Leading ConferenceIP Solutions

GN NETCOM IS NOW JABRA

GN Netcom is among the leading and fastest growing suppliers of hands-free communications solutions, focusing specifically on three market segments: contact centers, office and users of mobile phones. Established in 1987 by parent company, GN Great Nordic, GN Netcom has continuously introduced leading edge communication tools aimed at the office and mobile user.

Recently, GN Netcom has decided to market all of its products under the well known JABRA name. JABRA, is familiar to retail consumers for its portfolio of handsfree and bluetooth devices, as well as for its sleek and innovative designs.

Looking to leverage this brand awareness and further build its brand, all GN products will now bear the JABRA name. Over the next several months, you will continue to see new innovative products from JABRA. As in the past, you can expect them to offer new and exciting products to fit the growing needs of a mobile and active workforce.

This change in name will not affect your ordering process. All part numbers will remain the same, so the transition should be a smooth one. As your supplier, we aim to keep you informed and up-to-date with all changes and products as they are announced. Should you have any questions regarding these changes, please contact your sales rep for further information, or visit our website at [www.GBH.com](http://www.GBH.com).

### NEW PROMOTION FROM JABRA

To start the year, the new JABRA has launched the Freedom campaign, a new promotion for their wireless office headsets. The product of interest is the T5330 headset, which has an MSRP of \$149, substantially lower than a traditional wired headset and amp configuration, as well as nearly half the price of the leading competitor.

To sweeten the deal, JABRA is also offering a free BT500 for every T5300, 9120 series, and 9300 series headsets that are sold. To learn more about this offer, contact our sales office at 800.222.5424, and ask about the Jabra Freedom Campaign..
